“As Vistage members, we seek to develop our leadership intelligence to be the best we can be in order to make a positive contribution to our organizations, community and world. Becoming masterful involves a commitment to learning a practice and staying on the path. Every once in a while there is a rare opportunity to learn from others who are further down the path and accelerate our development exponentially. I am delighted that Vistage has partnered with Stanford University’s world-renowned executive education program. This is one of those opportunities for the few who want to go further and faster.”

“How often are we asked by members to suggest a resource for developing expertise in ingenuity, creativity, and innovative problem solving? Now, Vistage has partnered with Stanford University to bring this resource to our members and the pilot program will be offered in the Bay Area. We get to nominate the members who will be part of the first year-long program, Leadership in Innovation, taught by Stanford Business School Professors who specialize in this field. What an amazing opportunity for all our members and us, the Chairs.”
