

As a CEO, you depend on your experienced managers and team leads to execute your vision and deliver results. They're the operational backbone, so making sure they have the right training and development for their level of leadership is essential. The Vistage Advancing Leader Program is designed to make them more effective leaders. It raises their level of strategic thinking, communication and collaboration to help them deliver better results.

The **Advancing Leader Program** equips members with the skills to execute important initiatives that support the organization's strategy. Through the combination of expert speakers, application-based learning, peer feedback and customized evaluations, members learn to clearly define opportunities, gain internal alignment and lead implementation for greater organizational impact.

Leadership Role	Vistage Program	Outcomes
CEOs, Presidents and Founders	Chief Executive	Make great decisions to benefit company, family and community
C-level Executives	Key Executive	Improve effectiveness of key executives to support strategy and drive results for CEO
Experienced and Advancing Managers	Advancing Leader	Develop strategic thinking and execution skills to become more
aiiageis		effective at delivering results

Benefits to your organization	Benefits to advancing leaders
Bench strength: Prepares employees for key leadership positions within your organization.	Broaden cross-functional expertise: Develops effective thinking, communication and collaboration to manage strategic initiatives and deliver results.
Improved execution: Develops effective leaders who demonstrate cross-functional collaboration to drive results.	Relationship building: Cultivates professional relationships with colleagues across departments and levels.
Effective leadership: Equips senior managers at multiple levels with the tools and confidence to initiate and execute change.	Recognition and career advancement: Enhances development and greater visibility with strong potential to advance within the organization.

Advancing Leader develops managers into effective leaders through the Effective Leadership Methodology

- **Effective Thinking:** Involves thinking strategically beyond one's own subject matter expertise, understanding relevant facts and evaluating options.
- Effective Communication: Involves fostering understanding, support and motivation with stakeholders.
- Effective Collaboration: Involves seeking perspectives, achieving buy-in, adoption and participation.

How it works

The Advancing Leader Program helps experienced and advancing managers turbo-charge their professional growth through:

- **Expert speaker workshops:** Each meeting of 16-30 members features a workshop facilitated by a Vistage speaker that focuses on business-related topics and promotes effective leadership.
- **Effective leadership:** Members learn to think, communicate and collaborate effectively in order to propel professional growth.
- **Issue Processing focused on execution:** Using a structured framework to approach existing initiatives, challenges or opportunities, members gain clarity, peer feedback and next steps to deliver better results.
- **Cross-functional collaboration:** Members build and strengthen cross-departmental relationships with peers and colleagues for improved results.
